

BIAS SUPERCLUSTER START-UP PACK

The Oracle SuperCluster is a general purpose engineered system that delivers high performance, availability, scalability and security across a wide range of enterprise applications.

BIAS provides a comprehensive SuperCluster Fast Track Start-Up Pack that is intended to help customers quickly leverage BIAS' SuperCluster experience to install and configure SuperCluster, roadmap a detailed migration, and provide professional mentoring for SuperCluster best practices.

Utilize BIAS' expertise for the following:

PRE-ACQUISITION ASSESSMENT

- Physical assessment inclusive of site and data center readiness
- Architectural assessment options including full-scale capacity planning and consolidation studies
- BIAS data center hosting options for colocations or IaaS and PaaS managed services
- Full lifecycle management and customizable monitoring with 24x7 on-call support options available
- Detailed migration plans

SUPERCLUSTER INSTALLATION & CONFIGURATION SERVICES

- SuperCluster System Installation based on Oracle best practices
- Validate hardware, network and operating system
- Configure Oracle SuperCluster compute nodes, Oracle Exadata Storage Servers and InfiniBand switches
- Install Oracle Database, Oracle Exadata software and configure database servers
- Configure Shared Storage
- Run verification tests and document configuration and maintenance procedures
- Evaluate baseline patching levels for the entire SuperCluster stack
- Patching Strategy for firmware, Oracle Enterprise Linux or Solaris, Oracle Exadata software, RDBMS, and RAC

PROFESSIONAL MENTORING

- 40 hours hands-on SuperCluster training with an experienced SuperCluster Expert
- Documentation of installation and configuration steps

**THE BIAS SUPERCLUSTER QUICK START-UP PACK IS
A 3 WEEK FIXED COST ENGAGEMENT.**
