RETHINK MIDDLEWARE!

Economic and business factors have made middleware application infrastructure a strategic imperative across all industries. Business Process Management and SOA streamline the mission-critical, cross application processes that differentiate your business.

From the #1 Java Application Server to SOA/BPM and Enterprise 2.0 Portals from Oracle – BIAS provides our clients with solutions they need when they need them.

BIAS Corporation is a recognized leader in Service Oriented Architecture (SOA) and an Oracle Platinum Partner. BIAS can provide experienced SOA Architects and Developers to assist with everything from creating a SOA Center of Excellence to project implementation and ongoing support. Our SOA Roadmap combined with deep architectural and technical skills, utilizing best practices, can bring the benefits of SOA to your organization. With a proven track record of successful SOA implementations BIAS can help you achieve your SOA goals!

BIAS was the first partner asked to assist with the roll out of these products and we have become the leading implementation partner for the Oracle SOA suite, having more implementations and more expertise than any of our competitors.

From SOA/BPM, Identity Management, Enterprise Single Sign-On, Provisioning, Portals and E2.0 applications including Web Center Interaction (formerly ALUI), WebLogic Portal and portlet applications development with Java standards such as JSR 168/286, 301 and 170 deployed in Weblogic Server to Complex Event Processing and Coherence... BIAS has the expertise and a proven track record of delivering solutions to our clients need when they need them, guaranteed.

Our strategic partner status allows us many advantages including advanced product education, direct line contact to the Oracle development and product managers, and Tier 1 support for all of our customer implementations. No other consulting organization has this type of exposure or commitment.
