DATASHEET

Oracle Cloud Applications (SaaS) Expertise & Offerings

BUSINESS TRANSFORMATION EXPERTS. PROVEN RESULTS.

As a Certified Oracle Cloud Excellence Implementer, we have a keen focus in ERP, SCM and EPM Cloud implementations and continuous optimization via our managed services offerings post go-live. Our approach for implementing Cloud applications is to drive process design from the outset using modern business processes and functionality that are inherent within Oracle's Cloud applications. We are one of the few Systems Integrators who can bridge the divide between Business and IT with a keen focus on stated business objectives and desired outcomes.

BUSINESS DRIVERS & PAIN POINTS

MODERNIZE

- Decrease customizations & manual processes
- Provide instant smart data internally & externally
- Become more proactive, rather than reactive

SUPPORT & EFFICIENCY

- Ensure systems are supported, maintained & performance is optimal

STRATEGIC

- Reallocate resources from day-to-day maintenance to more challenging, value-add initiatives

CHANGE

- Deliver business value early & limit impact to the organization

SECURITY

- Balance openness and protection of data within our data-driven world

WHAT WE DO

Our team is comprised of CPAs, business leaders, Project Management Professionals (PMP), and Oracle Certified Solution Architects and Implementers.

Certified Oracle Cloud Excellence Implementation Partner

Roadmaps, implementations, upgrades & managed services

ERP, SCM & EPM SaaS Cloud expertise

Hybrid cloud strategies with SaaS & on-premise

Focused industries in Financial Services, Retail, Hospitality, Food & Beverage and Manufacturing

HOW WE CAN HELP

Transform to Cloud: We guide you through an interactive, agile-based implementation approach to reduce re-work, minimize risk and ensure you are better prepared to use the system to meet objectives.
