ORACLE ON GSA

## Streamline Your Oracle Procurements with GSA

### What's Available on Oracle's GSA?

Oracle has added Oracle Cloud Infrastructure (IaaS), Oracle Cloud Applications (SaaS), Oracle Construction & Engineering Cloud Services, and Engineered Systems and Hardware (including Servers and Storage software) all available through BIAS Corporation's GSA IT Schedule contract.

### Who is Eligible to Use it?

BIAS's GSA schedule provides federal agencies, as well as other qualified agencies and participating organizations, streamlined access to Oracle products and services to meet their mission critical requirements.

### How to Transact? It's Simple...

#### Quote

Get a quote from your local BIAS representative and ensure products are included on the contract

#### GSA Number

Reference the BIAS GSA Contract Number: [GS-35F-0558U](#)

#### Submit

Submit your order to BIAS (terms and conditions pre-negotiated between Oracle and Government)

### BIAS OVERVIEW

BIAS delivers customer-driven business and IT solutions to optimize and accelerate business value for some of the world's leading companies and public sector organizations. We are a recognized leader in strategic planning for Cloud architecture, database management, managed services, cloud and applications implementation.

BIAS partners with Federal agencies to implement Oracle products and technology solutions to deliver on mission critical objectives, enabling them to become more responsive and efficient as they modernize operations and enhance user services.
